XR-21D General X-ray UI State-Isolation Crash Test

TOTAL: 600 PASS: 600 FAIL: 0

Matrix: 576 cases covering all 6 Door/Bucky/Control creation orders x 4 Bucky walls x 4 opening walls x 3 Control Wall rotation states x 2 selection-churn orders, plus 24 save/reopen continuation cases. Each case also performs door movement. Continuous numeric input space is not finite and is not claimed to be exhaustive.
